Shop Search Feature

Find items in player shops, check their prices, and buy directly from one search window.

1. Open Private Shop Search

Start from your character menu

Open the circular menu around your character and select the shop-search option. The **Private Shop Search** window brings player-shop listings together so you can browse them in one place.

Choose a category and search

Select an item type under **Search Type**, then click **Search**. The video shows different results for Weapons, Guns, Hats, and Etc.

> **One window, multiple sellers**
>
> Each matching listing displays its seller, item, price, and available quantity.

Find the Item You Need

Use the search controls to narrow the list and read each offer before buying.

2. Refine your search

Search Type
Choose the category that matches your item.

Item Name
Enter all or part of the name and click Search. In the video, **OAS** returns **Oasis Water**.

Grade and Level
The panel also provides a grade selector and minimum / maximum level fields.

3. Read the results

Seller: the player offering the item.
Name / View: the item name and icon.
Price: cost per item in Galders.
Qty: available stock.
Number: quantity you want to buy.

Looking for something else?

Clear the previous item name, choose the appropriate category, and search again.

Buy Directly from Search

Set your quantity, review the total, and complete your purchase without opening each shop individually.

Example from the video

Fire Crystal 380: **50 Galders each × 50 items = 2,500 Galders**.
The purchase reduces the seller's stock from 52 to 2.

4. Set the quantity

Use the **Number** field beside the item to choose how many you want. Check the available **Qty** before buying.

5. Check the total and buy

Review the **Galder** total at the bottom of the window, along with your balance and the displayed weight information. Click **Buy** to purchase the selected quantity.

6. Check your purchase

A purchase message appears after a successful transaction. Open your inventory to check the items, then search again to see the updated listings.
