TricksterU Universal Wedding Guide

Choose your partner. Grow together. Celebrate your wedding.

Love without limits

TricksterU introduces **Universal Wedding**. In the original game, weddings were only possible between a male and a female character. In TricksterU, you can become a couple with any character, regardless of gender.

The process is the same: choose your partner, spend time together, complete the wedding quests, and prepare for your ceremony.

1. Choose your partner

You and your beloved should visit **Kyu** in **Event Garden - Ceremonia**. Start the couple request and select your partner.

Your partner, your choice

Universal Wedding welcomes every couple, including characters of the same gender.

Become a Couple

Accept the request and begin your time together

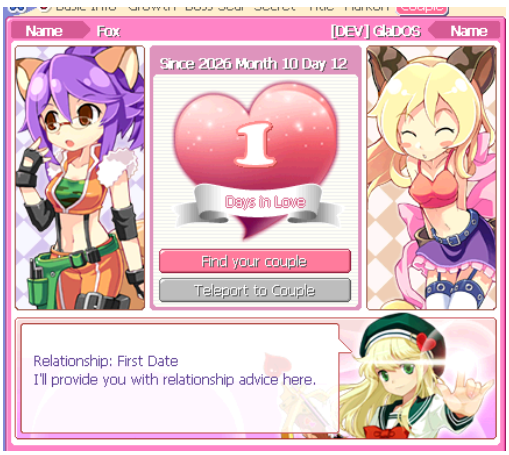

2. Both partners accept

Once your partner has been selected, **both of you must accept the request** to become a couple.

Confirm the request together to start your relationship.

3. Congratulations! You are now a couple

Your relationship has begun! Now it is time to **spend time together**.

When your relationship is ready for the next step, you will both receive the wedding quest notification shown on the next page.

Ready for the Next Step

Watch for the notification, then return to Kyu

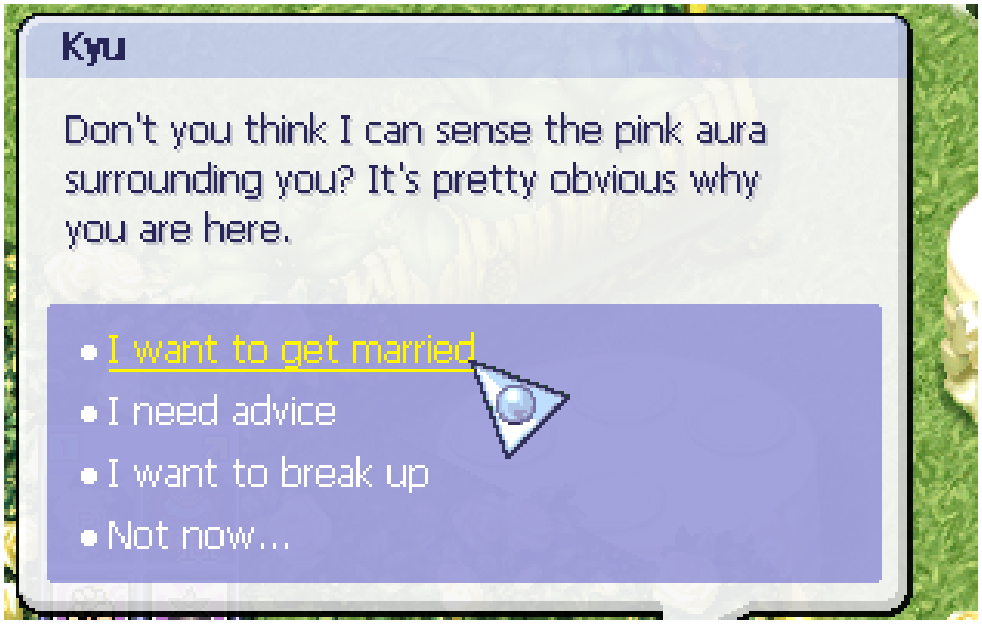

4. Receive the wedding quest notification

When the time comes, **both partners will receive this notification**. It tells you that you meet the requirements to start the wedding quests.

5. Tell Kyu you want to get married

Return together to **Kyu** in **Event Garden - Ceremonia** and select **"I want to get married"** to begin the wedding quests.

You are ready to start preparing for your wedding together.

Complete the Wedding Quests

Follow the quest chain together

6. Start with the wedding quest NPCs

Begin your wedding quests with **Louis Bitton** in **Megalopolis Square** and **Fusion Master Arlene** in **Megalopolis Shop**.

Louis Bitton
Megalopolis Square

Fusion Master Arlene
Megalopolis Shop

Same-gender couples: missing a wedding ticket?

If both characters are the same gender, you will receive the same types of quests and may be missing a wedding ticket. No worries! **Monkey_T** in **Megalopolis Square** has stolen the tickets and offers them **free of charge**.

The quests are mandatory

Complete the wedding quests. If you skip them, **Kyu will not let you get married**. Getting the tickets from Monkey_T does not replace the quests.

Prepare Your Wedding Items

Visit Tuxedo_T inside the Wedding Hall

7. Get the items needed for your wedding

After completing the quests, obtain the necessary wedding items from **Tuxedo_T** inside the **Wedding Hall**.

Browse Tuxedo_T's shop for the items you need for the ceremony.

Make sure you have your required materials before returning to Kyu.

Tuxedo_T - Wedding Hall shop

Let the Wedding Begin!

Return to Kyu, form a party, and celebrate together

8. Return to Kyu and begin the wedding

Once you have the necessary materials, speak to **Kyu** again in **Event Garden - Ceremonia** to begin the wedding.

Select your wedding options and confirm that you are ready for the ceremony.

Your special day is about to begin!

Before the ceremony

We recommend that **both partners be in the same party** before the ceremony begins.

9. Let the celebration begin!

Note: During the wedding quests, same-gender couples may encounter a visual bug where a completed quest still appears unfinished. Log out and log back in to refresh your screen.
